#### **Installation and Network Instructions - PC**

## 1. pc install.exe

2.

### Installation

- 1. Double-click on the 'PC\_install.exe' file for PC. (in the **installer** folder for Grade k, 1 and 2).
- 2. Select 'Network License.' Press 'Continue.'
- 3. NS

  To create a "Grade K Narrative" folder, use the button fellow and rowigate to the folder where you want your data to be stored.

  Check the box to create a shortcut on your Desktop.

  Create "Grade K Narrative" folder

Network License

3. Select the 'Create ... folder'.
(In this case, the 'Create "Grade K Narrative" folder')
You will be prompted to choose a place on your
computer where you want the folder and data
to be stored.

4. Install onto the server.

#### **Networking**

- 1. Once installed, go to each computer on the network and browse to the folder on the server where the program is installed.
- 2. Copy or drag the shortcut that has been created onto each desktop. This must be done for every computer on the network.

The program is now networked.

# 2. GK Narrative

#### Note:

If the server is using a shared folder to network from, you must copy the shortcut or aliases from within the folders that have been installed, not from the shortcut or aliases that are automatically generated on the desktop.
